## WELCOME TO THE WILDROSE SHOW AND SALE 2018

Welcome to All attending the Bison Producers of Alberta Association, Wildrose Bison Show and Sale!

The BPA Board of Directors and staff are pleased to present the Wildrose Show and Sale for you. This year we have more animals than any time in recent memory, from many great consignors.

This is an exciting time to be a part of the bison industry. Consistently high meat prices have turned into profits for cow-calf producers; and with a great future in sight, it is an excellent time to increase and improve your breeding herd, or to get into bison for the very first time. As bison can reproduce for many years, it is important to choose top quality breeding stock for long term success on your ranch.

This Show and Sale could not happen without all those involved. We would like to thank everyone taking part in the sale today, buying or selling – and to our Judges, Trevor Gompf and Nolan Miller. Also thanks to all our generous sponsors for their support, and to VJV for hosting the auction again this year.

Happy Bidding!

## WILDROSE 2017 JUDGES

**Nolan Miller**, Silver Creek Bison Ranch, Binscarth, MB

Silver Creek Bison was established by Nolan's parents, Lorne and Louise, in 1988. Nolan purchased his first animals in 1992, and joined Silver Creek's operation in 1995. Nolan has been working with Bison since the age of 13, and remains devoted to the industry. Nolan and brother Jason, along with their families, have taken over the Miller farm and work jointly to manage both the grain and bison. The Millers run 1500 animals in 7 different breeding herds. Nolan is the Chairperson of the Manitoba Bison Association, Director with the Canadian Bison Association and is an active member in the following committees: Canadian National Show & Sale and Great Spirit Show & Sale. The Millers partnered with two other well-known Bison producers in 2013 hosting the annual MGM Grand Genetics Bison Sale, which is still an ongoing event. Nolan is a strong supporter of the industry and enjoys working along with the Associations for the betterment of the producers and the Bison.

**Trevor Gompf**, Bison Spirit Ranch, Oak Lake, MB

Trevor Gompf owns and operates Bison Spirit Ranch, along with his wife Jodie and their 4 sons. They will be breeding over 170 females this year in 4 different herds. Trevor believes that bulls and heifers should be performance tested on whatever feed regime they are on before going into a breeding program. Combining this, and paying 110% attention to detail, will reap rewards for producers in this growing industry.

He is the proud recipient of various awards and accolades including: for the 2016 and 2017 Canadian Bull Drafts - 1st place Champion Bull, two 2nd place Bulls, one 3rd place Bull and one 5th place Bull. Trevor has also been named Canadian National Show & Sale Premier Breeder 3 times. This is Trevor's second time judging and he is excited to be back.

### ALBERTA BISON RANCH

Neil Hochstein  
Mayerthorpe, AB

[albertabisonranch@gmail.com](mailto:albertabisonranch@gmail.com)  
Phone: 780-284-0347

Alberta Bison Ranch, located between Sangudo and Mayerthorpe, was started by Neil's grandfather, Tom Meerheimb in 1980. Tom created a strong pure Plains herd known for its original genetics and good finishing, supplying many breeders their first bison. Neil has kept the same pride in maintaining the pure Plains herd in a low stress environment, raising them on grass and hay only. He now has a herd of 200 cows – holding the same strong plains genetics from the original herd. Offspring are raised to long yearlings, as well as finishing some to supply the growing meat market. If you are looking for pure Plains Bison that give results that stand, this is your chance.

### BACKWOODS BUFFALO RANCH

Chad & Laurie Trigg  
Mayerthorpe, AB

[backwoodsbuffaloranch@gmail.com](mailto:backwoodsbuffaloranch@gmail.com)  
Phone : 780-305-9253

Backwoods Buffalo Ranch, located south of Mayerthorpe, AB was established in 2013 by Chad & Laurie Trigg. Backwoods is home to a small but growing herd of pure plains bison, originating from the Alberta Bison Ranch (owned by Neil Hochstein). Chad and Laurie are striving to bring meaning to the saying "know your farmer, know your food" while building their ranch from the soil up. All livestock raised at Backwoods are accustomed to roaming the fields in their natural, low-stress environment. Raising Bison was a 'given' for Chad and Laurie, who live a free-range lifestyle connected to nature through their northern Alberta prairie soil and strong agricultural roots.

We are continuously improving the quality of our herd by making select purchases of top quality breeding stock, and meticulously selecting females out of our own herd. We are both proud and excited to be involved in the bison industry, and see a very bright future for this industry in the upcoming years.

## **FRIESEN FAMILY BISON**

Trent & Mandi Friesen  
Sunset House, AB

trentjmfriesen@yahoo.ca  
Phone: 780-598-1365

Friesen Family Bison is located at Sunset House, AB. Our main focus in previous years had always been in farming on our family farm at Dunvegan Gardens, AB. We farm vegetables, strawberry fields and run a successful greenhouse business that has been in the family for 65 years now. Six years ago we decided to get into bison and bought our first 70 animals and 6 quarters of land - with the intention of raising the bison in a low stress environment on grass, hay and oats. This mixed herd of Woods / Plains crosses has now grown to a herd of 200 on 12 quarters of natural land, where the animals lead a healthy and stress-free life. The bison brings a new dynamic to the type of farming the Friesen family has been used to - more time to be a family. With two young children in hockey and figure skating, raising bison has been the perfect addition to our family farm.

XY Bison Ranch, dating back to 1916, is a third generation ranch located along the Peace River near Fort St. John, BC. The original female bison was imported by G.T. Bouffieux circa 1939 from a park in Victoria, BC. The intent was to crossbreed with cattle to extend the grazing season, but alas – she was too bossy and had to be sacrificed to the Fort St. John Hospital. The present bison herd was started 28 years ago with plains heifers originating from the Merv Stagg herd in Hythe, AB. The breeding herd has been carefully selected for self-reliance and consistent calving, with the meat animals producing high-yielding carcasses. Our bull battery includes bulls from: Briggs ½ Woods, Dorey ½ Woods, Davey pure Woods, Taylor ½ Woods, Elk Valley ½ Woods and Patterson – pure Woods. XY Bison Ranch has received numerous awards throughout the years including: Premier Breeder at the CNSS, plus Grand and Reserve Champions at CNSS / Wildrose Show & Sale / and Peace River Classic. We are proud of our outstanding herd and truly appreciate the many repeat buyers.

**Our Goal: Sustainable Bison Meat and Fibre Production**

Sustaining the bison industry through Genetics and Innovation

In 2016 we began processing bison fibre here in Alberta to support our Partner's goal of developing clothing products that incorporate bison fibre. Today we supply our partner - United By Blue (UBB) - with as much bison fibre as we can get our hands on. UBB blends that fibre and now produces almost 20 different products. We are proud that our innovations in fibre production utilize more of the whole bison when it goes to market.
